## **Energy Performance Certificate**

Dwelling type:	Top-floor flat
Date of assessment:	10 May 2010
Date of certificate:	10 May 2010
Type of assessment:	RdSAP, existing dwelling
Total floor area:	68 m <sup>2</sup>

This home's performance is rated in terms of the energy use per square metre of floor area, energy efficiency hased on fuel costs and environmental impact based on carbon dioxide (CO.) emissions.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon. dioxide (CO<sub>4</sub>) emissions. The higher the rating the less impact it has on the environment.

Cathing die gy dae, carbon dioxide (Co)) emissions and idei costs of this notice		
	Current	Potential
Energy Use	234 kWh/m² per year	157 kWh/m² per year
Cartxon dioxide emissions	2.6 tonnes per year	1.8 tonnes per year
Lighting	£41 per year	£41 per year
Heating	£321 per year	£279 per year
Hot Water	£205 per year	£108 per year

The figures in the table above have been provided to enable prospective buyers and tenants to compare the fuel costs and carbon emissions of one home with another. To enable this comparison the figures have been calculated using standardised running conditions (heating periods, room temperatures, etc.) that are the same

for all homes, consequently they are unlikely to match an occupier's actual fuel bills and carbon emissions in practice. The figures do not include the impacts of the fuels used for cooking or running appliances, such as TV. fridge etc.; nor do they reflect the costs associated with service, maintenance or safety inspections. Always check the certificate date because fuel prices can change over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a This EPC and recommendations report may be given to the Energy Saving Trust to provide you with n on improving your dwelling's energy performs
