Energy Performance Certificate

save £ 1,257 over 3 years

Dwelling type: Mid-floor maisonette Reference number:

Date of assessment: 26 September 2015 Type of assessment: RdSAP, existing dwelling

Date of certificate: 28 September 2015 Total floor area: 112 m²

Use this document to:

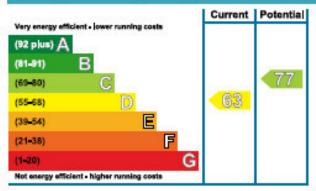

- Compare current ratings of properties to see which properties are more energy efficient
- Find out how you can save energy and money by installing improvement measures

Over 3 years you could save			£ 3,219		
			£ 1,257		
Estimated energy costs of this home					
	Current costs	Potential costs	Potential future savings		
Lighting	£ 312 over 3 years	£ 201 over 3 years			
Heating	£ 2,403 over 3 years	£ 1,380 over 3 years	You could		
Hot Water	£ 504 over 3 years	£ 381 over 3 years	save £ 1.257		

£ 1.962

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances like TVs, computers and cookers, and any electricity generated by microgeneration.

Energy Efficiency Rating

Totals £3,219

The graph shows the current energy efficiency of your home

The higher the rating the lower your fuel bills are likely to be.

The potential rating shows the effect of undertaking the recommendations on page 3.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

Top actions you can take to save money and make your home more efficient
